Gym

DYLAN AUMIS

SEEKING FOR A DEVOPS APPRENTICESHIP

I am currently preparing for the title of Expert in IT Architecture at 42 School and I would like to join your company as an apprentice.

EXPERIENCE IN DEVOPS

Project : 42 Transcendence (42 School)

Creation of a SPA based on the Pong game with various features (live chat, multiplayer features, social features, local games against AI...)

Stack : **Docker, Grafana, Prometheus, Vault, ElasticSearch**

Link : https://github.com/Dylonni/42_ft_transcendence

Project: Cloud-1 (42 School)

Creating Ansible Roles and Playbooks, usage of Terraform to deploy fully functional wordpress websites by using one command.

Stack : **Terraform, Ansible, Google Cloud Platform, Docker, Wordpress**

Link : https://github.com/Dylonni/42_Cloud_1

Project: Inception of Things (42 School)

Creating and deploying a Kubernetes cluster, alongside ArgoCD for the Continuous Deployment. Writing Documentation on how to deploy

Stack : **Vagrant, K8s, K3s, K3d, Bash, ArgoCD**

Link : https://github.com/Dylonni/42_IOT
